Disegno Ceramica.

Il bagno non esiste più.

Bathroom doesn't exist anymore.

Era il 1993 quando è cominciata l'esperienza Disegno Ceramica. Sì, una vera e propria esperienza come quella che si vive quando si fa un viaggio in cui si incontrano vicende previste e impreviste: alle prime si è preparati, alle seconde si risponde con coraggio e capacità di risolvere i problemi. Ma sia le une che le altre costruiscono l'esperienza.

Disegno Ceramica è un viaggio sullo scenario del bagno, di come era e di come oggi deve essere. Un'azienda che pensa e produce in costante connessione con quello che accade nel mercato e alle aziende del settore.

È così che Disegno Ceramica ha costruito l'esperienza che oggi la certifica come un'azienda matura, evoluta ed innovativa.

Disegno Ceramica oggi rappresenta il brand tipico del **design made in Italy** in cui progetto, ricerca e produzione si esprimono nelle collezioni che l'azienda propone. Valori che diventano la traduzione di quello che cerca il target oggi: sostenibilità, salute, utilità, durata senza rinunciare ad un forte carattere espressivo e uno styling personale.

È sotto questo concept che si muovono le proposte Disegno Ceramica in un mondo in cui il bagno non esiste più e ha lasciato spazio ad un ambiente living dedicato alla ricerca del benessere.

Disegno Ceramica experience started in the 1993. And it is a real true experience, such as the ones you can live enjoying a new travel, through expected and unexpected events: you are ready to face the first ones and for the second ones you need courage and ability to solve problems. Both of the elements will build up your life experience.

Disegno Ceramica is a journey along bathroom design scenery, the way it has been in the past and the way it has to be today. A company which thinks and produces in constant connection with everything happens inside global market and companies of the same field. That's the way Disegno Ceramica has built its experience, which made of it an innovative, evolved and mature company.

*Today Disegno Ceramica represents the typical brand of the **made in Italy design**: re-search, project and creation express themselves in all the collections offered by the company. These values are the realization of everything the target is looking for: sustainability, health, utility and duration without renouncing to a strong identity expression and to a personal style.*

According to these values, Disegno Ceramica ideas come out in a world where the old thinking of bathroom has been replaced by the new concept of a living area dedicated to personal care and wellness.

Made in Italy.

Made in Italy.

Storia, cultura, progetto: questi i 3 fondamenti del prodotto made in Italy e questi sono i concetti su cui nasce Disegno Ceramica, grazie ai quali realizza la propria collezione. Una storia che parte dal prodotto manufatto certificato da una produzione realizzata sul territorio di uno dei più importanti poli industriali italiani della ceramica per il bagno, Civita Castellana. Uno scenario denso di cultura di impresa, di "saper fare", di artigianato che nel corso del tempo diventa produzione in serie. Manufatti che diventano ambiziosi progetti, incoraggiati dall'adozione di strumenti tecnologici sempre più cooperanti con l'azione dell'uomo. La ricerca diventa studio di soluzioni innovative, controllo della purezza delle materie prime e gestione del processo di lavoro che mai rinnega l'origine artigianale del prodotto. Così il made in Italy si esprime nel progetto dell'ambiente bagno e così intende proporlo Disegno Ceramica al mercato. L'eccellenza del "saper fare" diventa prodotto di innegabile qualità.

History, culture, design: these are the three key elements of a made in Italy product and by them Disegno Ceramica is inspired to create its own collections. It is an history that starts from an handmade product, guaranteed by a tradition that comes from one of the most famous area of italian industrial ceramic production: Civita Castellana. A scenery made of culture, know-how, handicraft that through the years become serial production. Handmade products that become ambitious projects, encouraged by the use of technological instruments that improve man's ability. Researching becomes finding new solutions, becomes checking the purity of all materials and working never forgetting the handicraft origin of the product. That's the way the made in Italy express itself creating and designing bathroom areas and that's the way Disegno Ceramica offers it to the market. The excellence in creating things is already an high quality product.

Tutti i prodotti Disegno Ceramica sono progettati e realizzati esclusivamente in Italia.
All products by Disegno Ceramica are designed and manufactured in Italy.

È LA NOVITÀ. DISEGNO CERAMICA PRESENTA UNA NUOVA SERIE DI LAVABI MODERNI, MINIMALI DAL CARATTERISTICO PROFILO SOTTILE ED ELEGANTE. QUI LE LINEE RETTE E CURVE S'INCONTRANO IN UNA SINTESI FELICE DI TECNICA E DESIGN.

It's the novelty. Disegno Ceramica presents a new series of modern, minimal wash-basins characterised by the typical thin and elegant profile. In this line, the straight and curved lines meet in a pleasant union between technique and design.

Slim

Il massimo valore di Slim si evidenzia ancor di più nelle versioni da appoggio con rubinetto a parete. Un profilo leggero che percorre l'intero perimetro dell'oggetto.

Slim's added value stands out even more in the flat-rest versions with wall-mounted sink. A light profile that runs through the entire perimeter of the object.
