FOR EVERYONE!
TEMPO, SPAZIO, PASSIONI PER TUTTI!

La storia

La società Xilon nasce dall'esperienza e dalla passione, nel settore dell'ebanisteria, di Giuseppe Colamedici che, già in età molto giovane, come ragazzo di bottega, coltiva a Civita Castellana dove impara il mestiere del falegname.

Nel 1956 emigra in Venezuela con la propria moglie e intraprende un'attività di produzione mobili che gli permette di maturare competenze nella lavorazione in serie e di raggiungere un considerevole successo.

Nel 1997, all'età di 70 anni, incoraggiato dal figlio minore Franco Fulvio, non esita a mettersi nuovamente in discussione e, con un programma di formazione e insegnamento rivolto ai giovani, avvia un'attività di produzione mobili per lavanderia e bagno.

La Xilon perciò è la tradizione che si rinnova dove passato e presente costituiscono un percorso "ideale" di crescita, una piccola grande storia italiana. Attualmente, dopo un accurato studio del settore e tenuto conto del cambiamento, negli ultimi decenni, dello stile di vita della famiglia media, è maturata l'idea di progettare nuove soluzioni che potessero coniugare il design con la funzionalità in modo da soddisfare più esigenze nella famiglia.

L'idea è stata vincente ed ha permesso a Xilon di diventare un riferimento nel settore.

The story

The Xilon company was created from the experience and passion of carpentry by Giuseppe Calamedici. When he was a young man and an apprentice carpenter he learnt how to become a maestro. In 1956 he emigrated to Venezuela with his wife and started to produce furniture which allowed him to become an expert craftsman and then industrialize his furniture production and have a very important success.

In 1997, at the age of 70, encouraged by his youngest son Franco Fulvio, he did not hesitate to start again. Teaching and encouraging the next generation, he started a new production for the laundry room line. So, Xilon is now a new producer based on great traditions, where past and present develop into a growing project. An Italian story.

Now, after important studies, thinking about the many changes in the last years of family life styles, we have created new solutions which go together with design and practicality. Xilon helps with the needs of the family.

This is a winning idea which permits us to become a leader.

Franco Fulvio Colamedici

L'azienda

The company

Xilon nasce nel 1997, nel distretto industriale di Civita Castellana. Tradizione familiare, individuazione di risorse umane motivate e nuove idee per il bagno – lavanderia, sono state le condizioni cardine su cui abbiamo fondato la nostra azienda; concetti che hanno conferito continuità col nostro passato e tracciato ponti verso il nostro futuro. In questi anni si è investito sull'innovazione tecnologica ed il rispetto del lavoro dei nostri collaboratori che mai si sono sottratti alle nuove esigenze del mercato. Questa formula ha permesso crescita professionale e commerciale, ponendo XILON sul mercato come azienda di riferimento del settore. Qualità, design, funzionalità, "made in Italy totale" avvallano il marchio XILON di connotati irrinunciabili per le nuove sfide del futuro.

Our company was born in 1997 in the industrial area of Civita Castellana. Our family traditions are motivated by human resources and new ideas for the bathroom/laundryroom, and are now the principal concepts and foundations of the Xilon company, ideas which have helped our professional history and are now able to build bridges towards the future. Over these years we have invested in new technology, respecting the work of our colleagues who have always helped us to move towards the future. This collaboration has led us to a professional progress and a commercial success. So, Xilon is on the market as a leader in our trade and guarantees the excellence of our products.. Quality, design and capacity, always totally Made in Italy, will lead us to the new future.

Etica Ambiente Prospettiva

Ethic, Environment, Prospectives

APPUNTAMENTO CON IL FUTURO

Meet the future

XILON MADE IN ITALY, OUR WAY...

La sensibilità verso l'ecosostenibile porta l'Azienda alla continua ricerca di materiali amici dell'ambiente e che abbiano ottenuto certificazioni idonee in tal senso, non da meno è il fatto che siano MADE IN ITALY.

We are always conscious of our environment and so our company uses only "friendly" materials. We have a certification for this. Last but not least: our products are MADE IN ITALY.

Lo spazio destinato alle funzioni di cui ci occupiamo attraverso la nostra azienda, si arricchisce di connotati e azioni; un luogo domestico in continuo divenire. La lavanderia e il bagno diventano sempre più trasversali e vi trovano luogo azioni e modus vivendi legati alle nostre attitudini: hobistica, bricolage, cura del verde esterno-interno e modi dinamici di concepire il relax. Per queste motivazioni abbiamo creduto necessario offrire nuovi concetti progettuali, mirati all'evoluzione di questo spazio domestico ed esplorare in chiave sperimentale nuove soluzioni d'arredo. Il concetto di questo spazio domestico di "frontiera" tra esterno-interno, zona servizi-zona giorno, diventa opportunità per nuovi oggetti e funzioni, arricchendo di significati i rituali di sempre. Il nostro scopo è analizzare i nuovi trend domestici per rendere più liete le nostre azioni quotidiane conferendogli spessori intellettuali.

Our factory has done a lot of research to develop, enrich and become more functional in the domestic area, always in continual progress. The bathroom and the laundry room become more transversal for our hobbies, D.I.Y. and gardening; a new concept to enhance our wellness and daily living.

TEMPO, SPAZIO, PASSIONI, PER TUTTI / TIME, SPACE, PASSION, FOR EVERYONE

Freedom space

Spazio libero alle passioni di tutti i membri della casa. Un corollario di azioni e di oggetti che accompagnano il nostro quotidiano e diventano leggibili nei nostri spazi domestici. Il nostro modo di essere non deve essere nascosto.

A free space to be used by all members of the family. A number of objects and actions which accompany our daily and domestic life. Our way of life must not be hidden but exposed.

Stend-by

STEND-BY concept

Uno "stendino verticale" in metallo eletrosaldato adatto alla collocazione in spazi minimi. Nelle sue poliedriche modalità fornisce una valida alternativa a chi cerca un oggetto non solo funzionale ma anche ironico negli utilizzi.

"Stend By" is a vertical stand in welded metal which can be used in the smallest of spaces. Its many uses can be a valid an ironic alternative.

Lavarredo

TEMPO, SPAZIO, PASSIONI, PER TUTTI / TIME, SPACE, PASSION, FOR EVERYONE

LAVARREDO, QUELLO CHE GLI ALTRI BAGNI NON FANNO!

Lavarredo è una linea creata per rendere il bagno più funzionale e soddisfare l'esigenza di arredare, in modo pratico e gradevole, piccoli e grandi spazi. Rivoluzionaria l'idea di progettare un lavabo in ceramica, dal design deciso e più profondo rispetto allo standard (24cm), che ha permesso di coniugare eleganza e funzionalità.

LAVARREDO, WHAT OTHER BATHROOMS DO NOT DO!

Lavarredo is a model to make the bathroom more functional and to satisfy a need to furnish, in a practical and pleasant way, large and small spaces. Revolutionary is the idea to create a deeper ceramic washbasin than the standard one (24cm) and with a distinct design, which permitted us to unite elegance with functionality.

I nostri lavabi in ceramica, materiale universalmente riconosciuto, oltre che garanzia di resistenza e igiene, rappresentano il legame con una tradizione che nel nostro distretto è presente da sempre.

Our washbasins in ceramic, a material universally known, guaranteed for their strength and hygiene, represent a tie with tradition always present in Civita Castellana.

TEMPO, SPAZIO, PASSIONI, PER TUTTI / TIME, SPACE, PASSION, FOR EVERYONE

Dalla sensibilità dell'Azienda nella ricerca di prodotti e materiali sempre più innovativi, oltre che all'attenzione verso l'ambiente, nasce questa linea, che grazie all'adozione dell'alluminio rende questi oggetti interamente riciclabili e collocabili in qualsiasi ambiente.

Our company sensibility seeks for the newest product but always respecting our environment. This product is created thanks to alluminium which makes this model totally recyclable and easy to install anywhere.

TEMPO, SPAZIO, PASSIONI, PER TUTTI / TIME, SPACE, PASSION, FOR EVERYONE

Dalla continua ricerca di soluzioni che soddisfino le esigenze domestiche ed estetiche nasce il progetto Nanco. In esso si è voluto riformulare in chiave moderna il concetto di lavatoio creando nuovi lavabi in ceramica con soluzioni tecniche come lo strizzatoio SIL® e la profondità, 20 cm, che ne consente l'uso sia come normale lavabo sia come valido supporto in lavanderia.

*From a continual research for solutions that satisfy domestic and esthetic needs the NANCO project is created.
We want to reformulate, in a modern key, the concept of a laundry sink, creating new washbasins in ceramic with technical solutions such as ceramic pebbling Sil® and a new depth of 20 cm. This washbasin can be used or in the bathroom or in the laundry room.*

Stirobox

La sequenza di foto sopra riportate ci dimostra la grande praticità e utilità dello STIROBOX. Piccolo armadio L72xP40xH200 dove al suo interno troviamo un perfetto "organizer" per la stireria.

The series of photos above show how practical and useful the STIROBOX cabinet is. The interior of the small cabinet (W72xD40xH200) is perfectly organized for ironing.

Sempre valida la soluzione dell'asse da stirto a cassetto estraibile, la sequenza di foto dimostra come con poco spazio sia possibile avere comunque il minimo necessario.

The ironing board that can be pulled out from a drawer is always a good solution. The series of photos show how it is possible to have every necessity in very little space.

ALCUNI BUONI MOTIVI PER SCEGLIERE IL MADE IN ITALY DI XILON

GOOD REASONS TO CHOOSE XILON MADE IN ITALY

1 Bordi con incollaggio poliuretanico sulla quasi totalità dei componenti e pannello idrofugo V100 garantiscono la massima resistenza all'acqua.

Borders covered with polyurethane resin on nearly all components and water repellent panels which guarantee maximum water resistance.

2 Pannelli nobilitati e MDF a basso contenuto di formaldeide classe E1.

Melamine panels and MDF with a minimum content of formaldehyde class E1.

3 Robusti assemblaggi con colla resistente all'umidità.

Strong glue resistant to humidity used for assembly.

4 Fondo in alluminio a protezione delle basi con lavabo.
An aluminium protective sheet for basin bases.

5 Cerniere con triplice registrazione e chiusura slow-motion garantite per oltre 50000 cicli apertura/chiusura.

Hinges with three registrations for slow motion closures. Guaranteed for 50000 openings and closings.

6 Cassetti finitura tipo tessuto con guide slow-motion ad apertura totale.

Drawers in a material finish with slow motion guides and a total opening.

7 Ripiani in vetro con reggipiani anticaduta.

Glass shelves with safe holders.

8 Attaccaglie dei mobili base con sistema antisgancio.

Fittings of the base cabinet with non detachable mechanisms.

9 Tutti i tipi di piedini sono registrabili.

All feet are adjustable.

10 Innovativi lavabi in ceramica.

Innovative ceramic basins.
